Product code: 51035

The universal Qoltec power adapter dedicated to a laptop is a guarantee of safe power supply and use. It is characterized by high efficiency, which reduces energy consumption.

We invite you to familiarize yourself with the full range of our power adapters.
The **configurator** will help you choose the right model.

A SOLUTION DEDICATED TO YOU

Reliability is crucial for you? Choose the Qoltec **45W AC adapter dedicated to Lenovo laptops**. It will be ideal for use at home or in the office. It was made of the **highest quality materials**, and the technologies used in it will **allow low power consumption and high efficiency**. In addition, it is **characterized by high stability**.
In the set you will find a power adapter for **Lenovo 45W with a slim tip + PIN plug**, along with Velcro for organizing the cable, so you can adjust the length of the cable to your needs.

SAFE POWER SUPPLY IN A UNIVERSAL VERSION

Invest in security – it never loses its value. Made of the highest quality materials makes the Qoltec power supply an object worthy of your attention. It will ensure the expected **stability** of work thanks to special safeguards:

– **against overvoltage**: protects against too low or too high voltage,

– **against overloads**: protects against overloading the power line,

– **against short circuits**: protects against short circuits in the power circuit,

– **thermal**: protects against damage caused by overheating.

ADAPTING THE POWER SUPPLY – WE GIVE A HELPING HAND

It is very important to match the right AC adapter for your laptop model. You can reduce the forced break in activity to a minimum by following these simple rules:

You can read the basic parameters from **the label** on the bottom of the laptop, they will be: **POWER** (W), **VOLTAGE** (V), **CURRENT** (A). The following points will dispel any doubts that may arise when making your choice of equipment:

1. **POWER** (W) – this number indicates the minimum value that a new power supply should have. Nothing prevents you from using a product with a higher strength. Thanks to this, it will be less loaded, and therefore it will heat up less.

2. **CURRENT** (A) – here, as in the case of POWER, the value on the new power supply may be equal to or higher than that indicated on the rating label of the laptop.

3. **VOLTAGE** (V) – the number for this parameter is more restrictive. Only a **fluctuation of +/- 0.5V is allowed.**

The last and equally **important** issue is the **PLUG**. You can't move without it! There are no exceptions here, it must **be identical to the original.** The size shown is the outer diameter and inner diameter of the pin. If a comparison based on the presented photo is not enough, a measurement will be necessary, which will ultimately **confirm your choice.**

CONFIDENCE CONFIRMED BY A WARRANTY

You value the quality of purchased equipment so our projects and solutions are focused on **meeting your expectations.** Qoltec universal power adapter is covered by **36 months warranty**.
