This easy to use Nedis full color RGB+ smart Wi-Fi string of lights with a length of 10 metres brings the most advanced technology to your home decoration. Ideal to use as decoration lights for trees and outdoor party lights for gardens, shopping streets, facades and various other objects and spans. In the Nedis SmartLife App, each colour changing LED bulb is a pixel that can be controlled individually in the app. Next to that, it is also possible to make customizable moving patterns. For even more comfort, you can set timers and routines so that your string of lights is always on at the right time.
