

## ICY BOX IB-NH300

### Holder for Notebooks up to 17"

#### Key features

- Brings your notebook screen to eye level
- Notebook holder made of high-quality aluminium
- Silicone pads for a firm grip
- Better cooling due to slots in the tablet surface
- Protector to prevent the notebook from slipping down
- Z-shaped design ensures an ergonomic sitting position

#### Packing content

1x IB-NH300, Manual

## Simple and stylish!

With the IB-NH300 you can save space on your desk and keep things tidy. The notebook holder is made of high-quality aluminium and is equipped with silicone pads on the top and bottom. These and protective hooks on the shelf keep the notebook from falling off. The protective hooks do not prevent MacBooks to open easily as well. The Z-shaped design allows the shelf to be adjusted to any desired position, thus promoting good posture and protecting the neck and shoulders. The notebook holder is foldable and therefore easy to transport. The high-quality aluminium and the slots in the tray promote the transport of waste heat.

#### Technical data

<b>Maximum size of monitor</b>	17"

<b>Max. weight of monitor</b>	3 kg
<b>Mounting</b>	Standing
<b>Tilt angle</b>	0° to +90°
<b>Maximum height adjustment</b>	150 mm

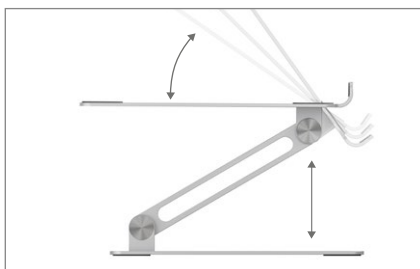

## ICY BOX **IB-NH300** Holder for Notebooks up to 17"

### Sturdy and versatile

The IB-NH300 notebook holder is carefully and very solidly made. The entire holder is made of high-quality aluminium. The design is adapted to the requirements of comfortable working, so that versatile adjustment options promote fatigue-free working.

### Adjustable in two planes

The IB-NH300's smooth-running joints, which are arranged in two planes, allow the user to adjust the angle and height of the notebook ideally to suit personal needs. Two degrees of freedom of angle adjustment offer an enormous number of possibilities to achieve an ergonomic posture.

### Non-slip and well ventilated

Thanks to the IB-NH300's generously perforated shelf, a resting notebook is given enough air to breathe even during long periods of operation. Equally useful are the two long silicone strips on the top and bottom edges, which effectively prevent the notebook from slipping.
